SOUTHERN TOWNS

Distances from One Camp to Another and How to reach Them.

Most people have an indirect knowledge of the location of the various newly established towns in the Southern Nevada gold districts few of them have any definite intelligent idea as to where each town actually is and the relative direction and distance of one from another. It will therefore be of interest to many and valuable to some to have them set forth. The following carefully prepared information regarding these localities, the names of which are seen and heard of every day more and more as time passes, but just where they are situated in the broad expanse of southern country few persons could tell, even among some of those interested more or less in mining affairs.

Goldfield is 28 miles south of Tonopah; 16 miles south of Goldfield is Tank Springs; 29 miles south of Tank Springs is Summerville, the new strike which is 3 miles west of Throp's Mill where is located the Nevada-Goldfield Mining Company's property. 27 miles south from Summerville is Muddy Spring, 8 miles south from Muddy is Old Bullfrog or Amagoza (now deserted) where the Original Bullfrog district, now about six months old. Three-quarters of a mile south is the new town of Bullfrog, formerly called Bonanza. From Rhyolite to Beatty, a town of 500 people, is 4 miles north east, passing the rich Montgomery Edwards mine. Go farther south from Beatty, 4 miles, one reaches Gold Centre with its 250 people. One hundred and ten miles southeast from Bullfrog are located the rich strikes of Los Vegas, reached by some, via the Clark railroad and stage.
